Iredell County, NC – JOINT INFORMATION CENTER

The Iredell County Emergency Management Agency activated its Emergency Operation Center (EOC) at 08:00 today in response to Hurricane Florence.

Representatives from key agencies have assembled at the EOC to coordinate any response activities that may be necessary.

At this time, shelters in Iredell County have not been opened. "We are prepared to open and handle evacuees, should that become necessary," said Kent Greene, Director of the Iredell County Emergency Management & Fire Services. "If shelters open citizens will be notified by hyper-reach as well as local media outlets."

Citizens who need more information can call the County EOC at 704-878-5353.
