

THURSDAY, APRIL 11TH NORTH-SOUTH PARKWAY SUB-AREA STUDY

Northern Mecklenburg County and southern Iredell County has limited north-south roadways to accommodate increased growth and related traffic. In 2010, the Urban Land Institute completed a study that identified the need for north-south connectivity and recommended a new facility which was titled the North-South Parkway.

This title implied the idea that the “North South Parkway” would stretch from Mooresville to Charlotte. Analysis and public engagement confirms existing development and environmental impediments restrict such a facility in the area. There is not one “parkway” that can complement NC 115 but rather a series of connections using existing and proposed thoroughfares that attempt to satisfy the North-South transportation demand for the local jurisdictions in the sub-area. Preliminary ideas have been developed and your input is critical for developing final recommendations to present to local communities for final approval.

If you need assistance in participating in a meeting or event due to a disability as defined under the ADA, please call the Project Manager at least three (3) business days prior to the scheduled meeting or event to request an accommodation.

WE WANT TO HEAR FROM YOU!

Drop-in anytime to learn about the study, talk with staff, and collaborate with your friends and neighbors.

Thursday,
April 11, 2019

6:00 pm – 8:00 pm
(Drop-in anytime)

**River Run Country Club
Ballroom**

**19125 River Falls Drive
Davidson, NC 28036**
